About us

Your trusted partner in innovative machinery

Together, we build a successful future.

The Valtech Group is a global leader in machine building, powered by a network of independent companies.

With over 450 dedicated employees, we deliver state-of-the-art solutions across various industries, transforming expertise into innovative projects worldwide.

Your gateway to world-class machinery solutions in China.

Innovative machinery for local excellence

As part of the esteemed Valtech Group, we combine our global expertise with a deep understanding of the Chinese market. This allows us to provide services that drive efficiency and innovation within your company.

Located in the heart of Beijing, we are ideally positioned to support industries such as textile, automotive, and recycling.

Our services

End-to-end installation & maintenance

A comprehensive service, tailored to your needs

Valtech Beijing offers you full support, from precise installations to customized maintenance programs. Our experienced technicians provide:

- Advanced system integration that perfectly aligns with your unique business requirements.
- Proactive maintenance programs to extend the lifespan of your equipment.
- Rapid response times for repairs and local parts availability.
- A customer-centric approach, combining technical precision with clear communication.
